YOUR CORETEC[®] FLOOR, MADE WITH CARE

We have a passion for providing a wide selection of authentic natural looks, so you can express what makes you, you. Persistent in product innovation – including micro-beveled edges, enhanced painted bevels & Embossed in Register technology – we create the most appealing designs & textures available.

When choosing a floor from this collection, you choose for a warm atmosphere and a powerful look. The exceptionally long planks are no less than **2.10 meters long** and **15 mm thick**. Thanks to the extra thick wear layer of 0.8 mm, these classy floors score excellently in terms of wear and impact resistance.

AN EXTRA THICK NATURAL BACKING

All our floors have a unique attached cork underlayment. Why? It's warmer, quieter and easily installs over existing hard surfaces, perfectly concealing imperfections in subfloors. And: it's one of the most sustainable materials out there. Cork is harvested from the cork tree and can be re-harvested every decade without damaging the tree.

A natural solution that brings only benefits to your home or business:

Added sound insulation

A comfortable and warmer floor

A natural protection against mold en mildew

No need for separate underlayment

Absorbs subfloor imperfections

EXTRA LONG, EXTRA STRONG

Best in class wear resistance

Eccellente resistenza all'usura / La mejor resistencia al desgaste de su categoría / Resistência ao desgaste topo de gama

100% waterproof

100% Resistente all'acqua / 100% resistente al agua / 100% à prova d'água

& EFFORTLESS
MAINTENANCE

COREtec® floors are
that good, somebody else
can re-*enjoy* it.

At COREtec® Floors, we attach great importance to sustainability. Recycling our multilayer, multicomponent material has a high energy cost, which means that a circular solution with re-use of the flooring is more appropriate. That's why we come up with an environmentally friendly solution: to set up Second Life floors, based on infinite re-use, an approach which is unique in our sector.

As the architects of multilayer waterproof rigid flooring, we are the first manufacturers to set up a take-back service, giving used flooring a new lease of life. These Second Life floors will initially be offered to charitable bodies and youth organisations. Our new service also has a societal dimension, as the business we call on to clean the used flooring employs people with complex barriers to work. They will use specially developed ecologically friendly COREtec® products to clean the dismantled flooring, making the old flooring look as good as new.

Thanks to Second Life, your old floor gets a real second chance. And therefore you also contribute to a more sustainable world!
